BUILD IT TO LAST

BARNs

**DECREASE HEATING & COOLING COSTS
IMPROVE HOG PERFORMANCE AND COMFORT**

ROTARIES

**CUSTOMIZED TO MEET SPECIFICATIONS
IMPROVED HYGIENE & WASHABILITY**

ROBOTIC PARLORS

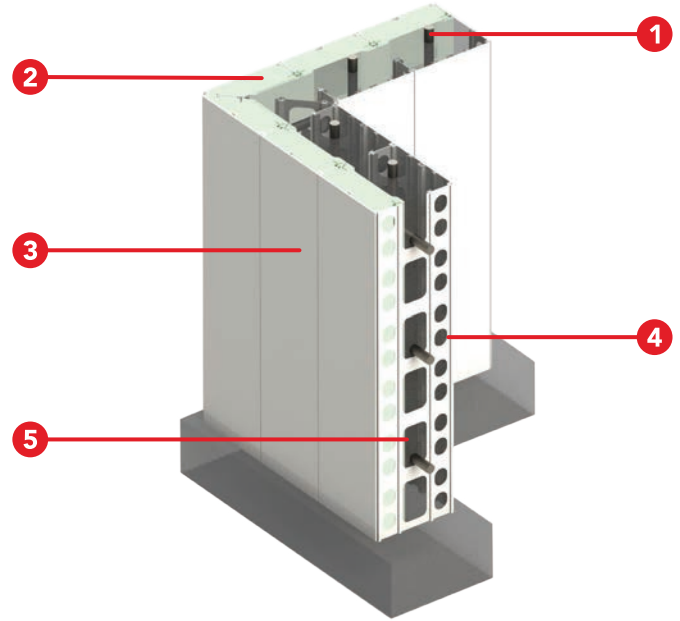

**FAST INSTALLATION AND REDUCED COST
FLEXIBLE DESIGN**

MANURE TANKS

**IMPERVIOUS TO CORROSION
EASY INTEGRATION TO EXISTING BUILDING**

- 1 REBAR** Uses standard rebar as specified by your engineer.
- 2 OPTIONAL INSULATION** Thermal mass of concrete, airtightness, added EPS insulation provides excellent R-values.
- 3 PVC PANEL** Outside panel protects the concrete and rebar from harsh chemicals and corrosive environments. Octaform PVC meets the strict sanitation standard set by the CFIA.
- 4 WALL THICKNESS** Connectors are available for walls between 4" to 24" thick.
- 5 CONCRETE** Compatible with standard concrete formulations. The system requires vibrating as specified and is poured in 4' lifts.

INNOVATING SINCE 1997

OCTAFORM® QUICKLINER

TIME FOR A REFRESH?

Protect and extend the life of your investment for years to come with durable, hygienic, food-grade PVC panels!
