PROTECT WALLS & CEILING

SUPPORTS STANDARD INSULATION

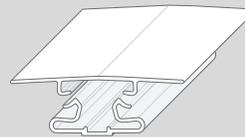

OCTAFORM® SNAPTRIM

Whether you need to trim an opening or fix a mistake, **SnapTrim™** makes it possible for anyone to finish like a pro.

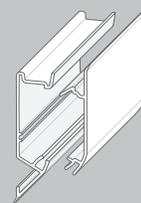

Just fasten the appropriate anchor strip, and a beautiful finishing piece snaps in place. No more patches or improvising. Just a professionally finished facility in a fraction of the time.

 QT-SHB / QT-SHC

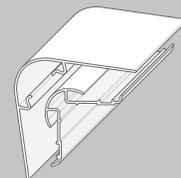

MULTI-TRIM
 QT-MTB / QT-MTC

INSIDE CORNER
 QT-SRB / QT-SRC

OUTSIDE CORNER
 QT-SROB / QT-SROC

- 1 SNAPTRIM™ EDGES** No caulking or sealant is required. Finish quickly and professionally at any wall location. Easily replace damaged or vandalized panels without removing and re-installation.
- 2 DURABLE PVC** Our heavy duty panels are extruded from an industry leading grade of PVC. Available in 18" widths and lengths between 8' and 20'.
- 3 TONGUE & GROOVE** Wide interlocking tongue and groove joint hides fasteners and allow a quick and simple installation.
- 4 NAILING FLANGE** Panels can be fastened to any structure and are typically supported every 16" to 24". Our design accommodates expansion and contraction in varied temperatures.

AGRICULTURE

HIGH SANITATION STANDARDS: Octaform can reduce the need for chemical pest control, antibiotics, or other medical treatment often necessitated by conventional environments. Octaform's food-grade PVC finish is easy to clean and will not absorb bacteria or support the growth of mold.

FOOD PROCESSING

COMPLIANCE: State of the art food processing facilities need a sealed, non-porous, smooth, and highly durable food-grade surface throughout the facility including entry vestibules, and often beyond, into the processing and storage areas of the building envelope.

VEHICLE WASH

REDUCED MAINTENANCE: Octaform ensures that your vehicle wash will look great and perform like the day it was built for many years to come. With Octaform's easy-to-clean, bright white PVC finish, you don't have to be concerned about maintenance and upkeep.
